- (a) bring the motorized snow vehicle to a complete stop; and
- (b) upon entering the roadway yield the right of way to all oncoming traffic which constitutes a hazard.

(2) The driver referred to in subsection 1 shall enter or cross at an angle of approximately 90 degrees to the direction of the roadway.

6.—(1) The driver of a motorized snow vehicle intending to turn to the right into an intersecting highway shall approach such intersection and turn as closely as practicable to the right curb or edge of the roadway.

(2) The driver of a motorized snow vehicle within an intersection intending to turn to the left across the path of any vehicle or motorized snow vehicle approaching from the opposite direction shall not make such left turn until he has afforded a reasonable opportunity to the driver or such other vehicle or motorized snow vehicle to avoid a collision.

(3) The driver of a motorized snow vehicle intending to turn to the left into an intersecting highway at an intersection where traffic is permitted to move in both directions on each highway entering the intersection shall approach such intersection as closely as

practicable to the centre line of the highway and the left turn shall be made by passing to the right of such centre line where it enters the intersection, and upon leaving the intersection by passing to the right of the centre line of the highway then entered.

11. No motorized snow vehicle shall be driven to the left of the centre of a roadway designed for one or more lines of traffic in each direction, when approaching the crest of a grade or upon a curve in the roadway or within 100 feet of a bridge, viaduct or tunnel where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle or motorized snow vehicle might approach from the opposite direction, but this section does not apply to a highway designated for the use of one-way traffic or to a highway divided into clearly marked lanes where there are more such lanes for traffic in one direction than in the other direction.

12.—(1) Subject to subsection 2, the driver of a motorized snow vehicle may overtake and pass to the right of another vehicle or motorized snow vehicle on a highway only,

(2) Subsection 1 does not apply to a roadway within a city, town or village, and the provisions of subsection 1 with respect to parking, standing or stopping do not apply to a portion of a roadway in respect of which a by-law passed by the council of a township or county or by the trustees of a police village prohibiting or regulating parking, standing or stopping on the roadway, as the case may be, is in force.

- (c) the defined area referred to in paragraph (b) may be altered, reduced or extended within the boundaries of the parking area with the approval of the Ontario Municipal Board if in the opinion of council it is deemed necessary so to do;
- (d) the entire cost chargeable to lands in the defined area shall be equitably apportioned among all parcels assessed as commercial in the proportion that the commercial real property and business assessment of each parcel bears to the total commercial real property and business assessment in the defined area;
- (e) the said apportionment shall be made annually on the basis of the last revised assessment roll;
- (f) all revenue from existing and future parking lots established by the corporation and from existing and future street meters, in the defined area shall be applied within the defined area for the purposes set out in clause (b);

2. Notwithstanding the provisions of any general or special Act,

- (b) when sinking fund debentures are issued, the amount of principal to be raised in each year shall be a specific sum that, with the estimated interest at a rate not exceeding $3\frac{1}{2}$ per cent per annum, capitalized yearly, will be sufficient to pay the principal of the debentures as it becomes due;
- (c) when sinking fund debentures are issued, the Committee shall keep one or more consolidated bank accounts in which,
 - (i) the treasurer of the Corporation shall deposit each year during the term of the debentures the moneys raised for the sinking funds of all debts that are to be paid by means of sinking funds, and
 - (ii) there shall be deposited all earnings derived from, and all proceeds of the sale or maturity or redemption prior to maturity of, sinking fund investments;

- (f) each member of the Committee shall, before entering into the duties of his office, give security for the faithful performance of his duties and for duly accounting for and paying over all moneys and securities that come into his hands, in such amount as the auditors of the Corporation shall determine, and in other respects the provisions of section 234 of The Municipal Act apply with respect to such security;
- (g) two members of the Committee shall be a quorum, and all investments and sales of investments must be approved by the treasurer of the Corporation and one other member of the Committee;

- (l) all securities acquired by the Committee as investments for sinking fund purposes shall be deposited for safe-keeping in a chartered bank or trust company until they are sold or mature or are called for redemption prior to maturity;
- (m) all sinking fund debentures issued on the same date, maturing on the same date and payable in the same currency, notwithstanding that they were issued under one or more by-laws, shall be represented by one sinking fund account;
- (n) where there is more than one sinking fund debenture by-law outstanding, the earnings from sinking fund investments in each year shall be apportioned by the Committee among all the sinking funds in the proportion that the increase during that year in the accumulated interest as provided for in clause (b) on the specific amount required to be deposited annually during the currency of each sinking fund debenture by-law bears to the total of all increases during that year in the accumulated interest as provided for in clause (b) on all specific amounts required to be deposited annually during the currency of all outstanding sinking fund debenture by-laws;

- (o) where the office of the treasurer of the Corporation is vacant or the treasurer is absent or is unable to carry on his duties through illness or otherwise, the deputy treasurer of the Corporation shall act in his stead, and when so acting, has all the powers and duties of the treasurer as a member and as the chairman and treasurer of the Committee.

3.—(1) The council of the Corporation may pass by-laws for regulating the crossing of curb-lines, sidewalks or paved boulevards by vehicles delivering materials to or removing materials from abutting lands on which any building is being erected, altered, repaired or demolished, and for requiring the owners of such abutting lands, upon any application for the issuing of a permit certifying to the approval of plans of buildings to be erected, altered, repaired or demolished thereon, to pay to the Corporation a sum of money not to exceed \$5 per foot of the limit of the lot abutting directly on such sidewalk, curbing or paved boulevard as a deposit to meet the cost of repairing any damage to the sidewalk, curbing or paved boulevard or to any water service box or other service therein caused by the crossing thereof by such vehicles.

(2) Where a by-law passed under this section requires the payment of a deposit to cover the cost of damage to a sidewalk, curbing or paved boulevard, or to any water service box or other service therein, the by-law shall provide that, upon the completion of the erection, alteration, repair or demolition of the building or buildings on the lands abutting such sidewalk, curbing or paved boulevard and upon application by the person by whom the deposit was paid, the amount by which the sum deposited exceeds the cost of such repairs shall forthwith be refunded.

(3) Where any moneys heretofore or hereafter paid to the Corporation to cover the cost of repairs to curbs, sidewalks or paved boulevards or to any water service box or other service therein remain unclaimed in the hands of the Treasurer of the Corporation for a period of six years, the Treasurer of the Corporation may insert in any newspaper having general circulation in the Town of Burlington a notice containing a list of such unclaimed moneys and stating that all persons having any claim to any of such moneys are required to prove their claims within ninety days from the publication of such notice, the Treasurer of the Corporation may transfer all of such moneys against which no claim has been made to the general funds of the Corporation free of and from any and all claims of any kind whatsoever.

(4) Without limiting the generality of subsection 1, a by-law passed under this section may require that the owner or occupier of the lands take all necessary steps to prevent building material, waste or soil from being spilled or tracked onto the public streets by vehicles going to or coming from the lands during the course of the erection, alteration, repair or demolition and may provide that, in addition to any penalty otherwise provided by law, the owner or occupier shall be responsible to the Corporation for the cost of removing such, and such cost may be deducted from the deposit.

THE CORPORATION OF THE
TOWN OF BURLINGTON

NOTICE IS HEREBY GIVEN that The Corporation of the Town of Burlington will apply to the Legislative Assembly of the Province of Ontario for an Act providing that:

1. Notwithstanding any general or special Act, the council of the Corporation may pass a by-law for establishing a parking area in the Town of Burlington as described in Schedule "A" hereto; and acquiring, establishing, laying out and improving land, buildings and structures in the parking area or adjacent thereto, where vehicles may be parked, and for erecting buildings, or structures for or in connection with the parking of vehicles in, on or under any lands vested for any purpose in the municipality in the parking area or adjacent thereto and for leasing such land, buildings or structures in the parking area or adjacent thereto and for regulating, supervising and governing the parking of vehicles therein or thereon in accordance with paragraph 67 of section 377 of The Municipal Act, and such by-law may provide that:

- (a) the parking area may be altered, reduced or extended with the approval of the Ontario Municipal Board if in the opinion of council it is deemed necessary to do so;
- (b) the capital cost thereof, or any part thereof, the annual rental payable under a lease or any operating deficit in the previous year shall be levied against the lands in a defined area within the parking area that in the opinion of the council derives special benefit therefrom;
- (c) the defined area referred to in paragraph (b) may be altered, reduced or extended within the boundaries of the parking area with the approval of the Ontario Municipal Board if in the opinion of council it is deemed necessary to do;
- (d) the entire cost chargeable to lands in the defined area shall be equitably apportioned among all parcels assessed as commercial in the proportion that the commercial real property and business assessment of each parcel bears to the total commercial real property and business assessment in the defined area;
- (e) the said apportionment shall be made annually on the basis of the last revised assessment roll;
- (f) all revenue from existing and future parking lots established by the corporation and from existing and future street meters, in the defined area shall be applied within the defined area for the purposes set out in clause (b);
- (g) all other revenue from existing and future parking lots established by the corporation and from existing and future street meters outside the defined area but within the parking area shall be reserved for future parking facilities within the parking area.

2. Notwithstanding the provisions of any general or special Act,

- (a) the council of the Corporation may provide in any money by-law that the principal shall be repaid at a fixed date with interest payable annually or semi-annually, in which case the debentures issued under the by-law shall be known as sinking fund debentures;
- (b) when sinking fund debentures are issued, the amount of principal to be raised in each year shall be a specific sum that, with the estimated interest at a rate not exceeding $3\frac{1}{2}$ per cent

per annum, capitalized yearly, will be sufficient to pay the principal of the debentures as it becomes due;

- (c) when sinking fund debentures are issued, the Committee shall keep one or more consolidated bank accounts in which,
 - (i) the treasurer of the Corporation shall deposit each year during the term of the debentures the moneys raised for the sinking funds of all debts that are to be paid by means of sinking funds, and
 - (ii) there shall be deposited all earnings derived from, and all proceeds of the sale or maturity or redemption prior to maturity of, sinking fund investments;
- (d) when sinking fund debentures are issued, there shall be a sinking fund committee, herein called the Committee, which shall be composed of the treasurer of the Corporation and two members appointed by the Lieutenant Governor in Council, and the two appointed members shall be paid, out of the current funds of the Corporation, such annual remuneration as the Lieutenant Governor in Council may determine;
- (e) the treasurer of the Corporation shall be the chairman and treasurer of the Committee, and in his absence the appointed members may appoint one of themselves as acting chairman;
- (f) each member of the Committee shall, before entering into the duties of his office, give security for the faithful performance of his duties and for duly accounting for and paying over all moneys and securities that come into his hands, in such amount as the auditors of the Corporation shall determine, and in other respects the provisions of section 234 of The Municipal Act apply with respect to such security;
- (g) two members of the Committee shall be a quorum, and all investments and sales of investments must be approved by the treasurer of the Corporation and one other member of the Committee;
- (h) all assets of the sinking funds, including all consolidated bank accounts, shall be under the sole control and management of the Committee;
- (i) all withdrawals from the consolidated bank accounts shall be authorized by the Committee, and all cheques on the consolidated bank accounts shall be signed by the treasurer of the Corporation and one other member of the Committee;
- (j) the Committee shall invest moneys on deposit from time to time in the consolidated bank accounts and may at any time or times vary any investment;
- (k) the moneys in the consolidated bank accounts shall be invested in debentures of the Corporation or other securities in which a trustee may invest under the provisions of The Trustee Act or in securities issued by the United States of America;
- (l) all securities acquired by the Committee as investments for sinking fund purposes shall be deposited for safe-keeping in a chartered bank or trust company until they are sold or mature or are called for redemption prior to maturity;

(m) all sinking fund debentures issued on the same date, maturing on the same date and payable in the same currency, notwithstanding that they were issued under one or more by-laws, shall be represented by one sinking fund account;

(n) where there is more than one sinking fund debenture by-law outstanding, the earnings from sinking fund investments in each year shall be apportioned by the Committee among all the sinking funds in the proportion that the increase during that year in the accumulated interest as provided for in clause (b) on the specific amount required to be deposited annually during the currency of each sinking fund debenture by-law bears to the total of all increases during that year in the accumulated interest as provided for in clause (b) on all specific amounts required to be deposited annually during the currency of all outstanding sinking fund debenture by-laws;

(o) where the office of the treasurer of the Corporation is vacant or the treasurer is absent or is unable to carry on his duties through illness or otherwise, the deputy treasurer of the Corporation shall act in his stead, and when so acting, has all the powers and duties of the treasurer as a member and as the chairman and treasurer of the Committee.

3.—(1) The council of the Corporation may pass by-laws for regulating the crossing of curb-lines, sidewalks or paved boulevards by vehicles delivering materials to or removing materials from abutting lands on which any building is being erected, altered, repaired or demolished, and for requiring the owners of such abutting lands, upon any application for the issuing of a permit certifying to the approval of plans of buildings to be erected, altered, repaired or demolished thereon, to pay to the Corporation a sum of money not to exceed \$5 per foot of the limit of the lot abutting directly on such sidewalk, curbing or paved boulevard as a deposit to meet the cost of repairing any damage to the sidewalk, curbing or paved boulevard or to any water service box or other service therein caused by the crossing thereof by such vehicles.

(2) Where a by-law passed under this section requires the payment of a deposit to cover the cost of damage to a sidewalk, curbing or paved boulevard, or to any water service box or other service therein, the by-law shall provide that, upon the completion of the erection, alteration, repair or demolition of the building or buildings on the lands abutting such sidewalk, curbing or paved boulevard and upon application by the person by whom the deposit was paid, the amount by which the sum deposited exceeds the cost of such repairs shall forthwith be refunded.

(3) Where any moneys heretofore or hereafter paid to the Corporation to cover the cost of repairs to curbs, sidewalks or paved boulevards or to any water service box or other service therein remain unclaimed in the hands of the Treasurer of the Corporation for a period of six years, the Treasurer of the Corporation may insert in any newspaper having general circulation in the Town of Burlington a notice containing a list of such unclaimed moneys and stating that all persons having any claim to any of such moneys are required to prove their claims within ninety days from the publication of such notice, the Treasurer of the Corporation may transfer all of such moneys against which no claim has been made to the general funds of the Corporation free of and from any and all claims of any kind whatsoever.

(4) Without limiting the generality of subsection 1, a by-law passed under this section may require that the owner or occupier of the lands take all necessary steps to prevent building material, waste or soil from being spilled or tracked onto the public streets by vehicles going to or coming from the lands during the course of the erection, alteration, repair or demolition

and may provide that, in addition to any penalty otherwise provided by law, the owner or occupier shall be responsible to the Corporation for the cost of removing such, and such cost may be deducted from the deposit.

(2) This Regulation applies to all new motor vehicles sold, offered or exposed for sale as 1969 models to the ultimate purchaser who is a resident of Ontario.

EXEMPTIONS

3. The classes and types of new motor vehicles and new motor vehicle engines exempt from this Regulation are,

- (a) a motor vehicle engine that has an engine displacement of less than 50 cubic inches;
- (b) a motor vehicle having a motor vehicle engine that has an engine displacement of less than 50 cubic inches;
- (c) a motor vehicle engine in a commercial motor vehicle that has a design capacity of more than one-half ton;
- (d) a commercial motor vehicle that has a design capacity of more than one-half ton;
- (e) a motorcycle;
- (f) a motor vehicle or motor vehicle engine not intended for use on a street or highway;

- (j) any new motor vehicle, having a new motor vehicle engine, forming part of a manufacturer's total annual sales volume in Ontario where such total annual sales volume does not exceed 100 new motor vehicles having new motor vehicle engines.

STANDARDS FOR SYSTEMS OR DEVICES

4. Where a system or device is installed on or incorporated in a new motor vehicle or a new motor vehicle engine, such system or device, in its operation or function, shall meet the requirements of section 6 and,

- (a) shall not cause emission into the outdoor atmosphere of any air contaminant or contaminants that would not be emitted into the outdoor atmosphere during the operation of such motor vehicle or motor vehicle engine if the motor vehicle or motor vehicle engine were not equipped with such system or device; and
- (b) shall not result in any unsafe condition endangering persons or property.

CRANKCASE EMISSIONS

5.—(1) Where a new motor vehicle or new motor vehicle engine is operated in Ontario, the crankcase of the motor vehicle engine shall be constructed in such manner and maintained in such condition that no crankcase emissions are discharged into the outdoor atmosphere.

(2) The manufacturer of any new motor vehicle or new motor vehicle engine on or in which a system or device is installed or incorporated to comply with the requirements of subsection 1 shall test or cause to be tested as many motor vehicles and motor vehicle engines as are required to ensure that the motor vehicles or motor vehicle engines meet the requirements of subsection 1 for not less than one year after sale and delivery to the ultimate purchaser.

EXHAUST EMISSIONS

6.—(1) Where a new motor vehicle or a new motor vehicle engine is operated in Ontario, the hydrocarbon and carbon monoxide content of the exhaust emissions shall not exceed,

- (a) where the engine displacement is at least 50 cubic inches but not more than 100 cubic inches,
 - (i) 410 parts per million by volume of hydrocarbons, or
 - (ii) 2.3 per cent by volume of carbon monoxide;
- (b) where the engine displacement is more than 100 cubic inches but not more than 140 cubic inches,
 - (i) 350 parts per million by volume of hydrocarbons, or
 - (ii) 2.0 per cent by volume of carbon monoxide; and
- (c) where the engine displacement is more than 140 cubic inches,
 - (i) 275 parts per million by volume of hydrocarbons, or
 - (ii) 1.5 per cent by volume of carbon monoxide.

(2) The requirements of subsection 1 apply to composite values calculated under section 8 from results obtained in tests of exhaust emissions from the operation of the new motor vehicles and new motor vehicle engines in accordance with the test procedures set out in section 7.

(3) Where the composite value calculated under section 8 for a motor vehicle having a motor vehicle engine of a specified engine displacement does not exceed the amounts of hydrocarbons and carbon monoxide set out in subsection 1, every motor vehicle having a motor vehicle engine of the same specified engine displacement shall be deemed to comply with the requirements of subsection 1.

7.—(1) For the purposes of this section,

- (a) where the records of a manufacturer of his sales in Ontario of motor vehicles in any year are not available or are inadequate for the selection of new motor vehicles and new motor vehicle engines for a model year for testing under subsection 2, the manufacturer shall make selections of new motor vehicles and new motor vehicle engines on the basis of his total sales of motor vehicles and motor vehicle engines; or
- (b) where any motor vehicle manufacturer is subject to the terms and conditions of the Canada-U.S. Automotive Products Trade Agreement, he may, when selecting new motor vehicles and new motor vehicle engines for a model year for testing under subsection 2 base his selection on the records of his sales for the area covered by the Agreement.

(2) Procedures for testing and inspecting systems or devices installed on or incorporated in new motor vehicles and new motor vehicle engines to prevent or lessen the emission into the outdoor atmosphere of any air contaminant or contaminants from the operation of such new motor vehicles or new motor vehicle engines, shall be as follows:

1. Where a manufacturer of new motor vehicles and new motor vehicle engines intends to sell, offer or expose for sale in any model year a new motor vehicle having a new motor vehicle engine, he shall select, from his manufacture of such motor vehicles and motor vehicle engines, for testing of exhaust emissions,

(a) at least two such motor vehicles having motor vehicle engines of the same engine displacement; and

(b) where the probable sales volume of new motor vehicles having motor vehicle engines of a specified engine displacement will account for at least one-half of one per cent of the total number of new motor vehicles sold in Ontario in the latest preceding model year of the manufacturer for which sales records in Ontario are available, at least four new motor vehicles having motor vehicle engines of the same engine displacement,

but in no case shall the total number of new motor vehicles having new motor vehicle engines be fewer than four.

2. New motor vehicles used for the testing of the new motor vehicle engines shall be those vehicles in which the manufacturer usually installs such engines and shall be equipped as nearly as possible with transmission and carburetors in proportion to the number of comparable motor vehicles so equipped in the latest preceding model year of the manufacturer for which his sales records in Ontario are available.
3. Where under paragraph 2, a manufacturer makes tests of new motor vehicles having new motor vehicle engines and installs a combination of engine and transmission system in more than one model of motor vehicles, only one series of tests of exhaust emissions is required, but, where the combination of such engine and transmission system in any new motor vehicle may increase the amount of hydrocarbons and carbon monoxide in the exhaust emissions, tests are required in respect of each motor vehicle.
4. Each new motor vehicle having a new motor vehicle engine to be tested for amounts of hydrocarbons and carbon monoxide in exhaust emissions shall be driven a distance of at least 4,000 miles and tests shall then be made for the amounts of hydrocarbons and carbon monoxide in the exhaust emissions, each test being of the motor vehicle running on a dynamometer and the motor vehicle engine for each test being run from a cold start through seven identical testing cycles without stalling of the motor vehicle engine and with each cycle lasting 137 seconds and consisting of a series of periods of acceleration, deceleration, steady speeds and idling.
5. The hydrocarbon and carbon monoxide content of the exhaust emissions referred to in paragraph 4 shall be measured for each period of the seven testing cycles and shall be recorded in respect of each motor vehicle engine

so that a value, representative of the hydrocarbon and carbon monoxide content in the exhaust emissions during the periods of the seven testing cycles, is obtained for that engine for the purposes of section 8.

6. In addition to the selection of new motor vehicles having new motor vehicle engines for testing of exhaust emissions under paragraphs 1 to 5, the manufacturer shall select not fewer than four and not more than ten motor vehicles for tests of durability of the systems or devices or of the exhaust emission system and in the selection he shall have regard to the combinations of engine displacements and transmissions, including automatic and manual transmission installations, so that his selections represent at least 70 per cent of the number of motor vehicles sold by the manufacturer in Ontario during his latest preceding model year for which his sales records in Ontario are available, but where his records show that the total number of motor vehicles sold by him in Ontario is less than 10 per cent of the total sales in Ontario of all manufacturers, the combinations shall be so chosen that the number of motor vehicles tested for durability of the systems or devices or of the exhaust emission systems represents at least 50 per cent of the number of motor vehicles sold by the manufacturer during that latest preceding model year, but in no case shall the number of motor vehicles so tested be fewer than four.
7. Every new motor vehicle having a new motor vehicle engine tested under paragraph 6 shall be driven a distance of at least 50,000 miles and tested in the manner referred to in paragraphs 4 and 5, the tests to be carried out on each motor vehicle at intervals of not more than 4,000 miles and the results from such tests shall be recorded.
8. From the results recorded under paragraph 7, a value shall be calculated for the hydrocarbon and carbon monoxide content of the exhaust emissions and the representative values thus obtained shall be used in the calculation of the factor mentioned in paragraph 5 of section 8.

8.—(1) Where recording is made under section 7 of results of tests for amounts of hydrocarbons and carbon monoxide in exhaust emissions in respect of any new motor vehicle having a new motor vehicle engine, a composite value shall be determined under subsection 2 that takes into account factors of deterioration in efficiency of the system or device, resulting from the use of that new motor vehicle and new motor vehicle engine, in accordance with the procedures under subsection 2.

(2) The procedures for calculation of the composite value of hydrocarbons and carbon monoxide in the exhaust emissions of each new motor vehicle tested under section 7 shall be as follows:

1. The representative values recorded in respect of all motor vehicles and motor vehicle engines tested under paragraphs 7 and 8 of section 7, shall be averaged for the following mileage intervals:
 - i. 4,000 to 12,000 miles.
 - ii. 12,000 to 24,000 miles.
 - iii. 24,000 to 36,000 miles.
 - iv. 36,000 to 50,000 miles.

2. The result of all tests for amounts of hydrocarbons and carbon monoxide in exhaust emissions recorded in respect of all motor vehicles and motor vehicle engines, tested under paragraphs 4 and 5 of section 7, shall be averaged.
3. The values of the averages of the hydrocarbon concentrations and the carbon monoxide concentrations obtained under paragraphs 1 and 2 at the average number of miles travelled shall be used to obtain two graphs, one for hydrocarbons and one for carbon monoxide, by plotting the average hydrocarbon values and the average carbon monoxide values against the average number of miles travelled by the motor vehicle.
4. On each of the graphs mentioned in paragraph 3, a straight line shall be drawn as near as possible to the points plotted on the graphs and the line shall project a sufficient length to allow readings for emission levels at each of 4,000 miles and 50,000 miles.
5. The factors in respect of hydrocarbons and carbon monoxide for deterioration in efficiency of the systems or devices installed on or incorporated in the new motor vehicles and new motor vehicle engines tested shall be in accordance with the following formula:

$$\text{factor} = \frac{\text{exhaust emissions extrapolated to 50,000 miles}}{\text{exhaust emissions extrapolated to 4,000 miles}}$$

6. The results of all tests of exhaust emissions to determine amounts of hydrocarbons and carbon monoxide under paragraphs 4 and 5 of section 7 for motor vehicles having motor vehicle engines of the same engine displacement shall be averaged.
7. For each engine displacement the composite value mentioned in subsection 1 shall be obtained by multiplication of the hydrocarbon factor or the carbon monoxide factor described in paragraph 5, as the case may be, by the amount of the average obtained under paragraph 6.

27.—(1) Where,

(a) a municipality is a party; and

(b) an engineer who has reported to the municipality in respect of the drainage works is present,

the referee may, at the commencement of a hearing and before any evidence is tendered, call upon the engineer to give evidence in respect of such matters within his knowledge as the referee considers likely to be of assistance in delineating the issues in dispute, and the engineer when called upon by the referee shall be regarded as an expert witness called by the court and shall not, while giving the evidence, be eligible to be examined or cross-examined by any of the parties.

(2) Where an engineer is called upon to give evidence under subsection 1 by the referee, the engineer is eligible to be called upon at a later stage of the hearing as a witness for any party to the proceedings.

28. An application to set aside any proceedings because of irregularity shall be made within thirty days and the referee may disallow such an application where the party making the application has taken a fresh step after knowledge of the irregularity.

29. Unless the referee otherwise orders, there shall be at least seven clear days between the service of a notice of a motion and the day for a hearing.

30. The referee may increase or decrease the time appointed by these Rules, or fixed by order, for doing any act or taking any proceedings upon such terms as the referee deems just, and any increase or decrease of time may be ordered although the application for the increase or decrease is not made until after the expiration of the time appointed or allowed.

(c) when sinking fund debentures are issued, the Committee shall keep one or more consolidated bank accounts in which,

(i) the treasurer of the Corporation shall deposit each year during the term of the debentures the moneys raised for the sinking funds of all debts that are to be paid by means of sinking funds, and

- (n) where there is more than one sinking fund debenture by-law outstanding, the earnings from sinking fund investments in each year shall be apportioned by the Committee among all the sinking funds in the proportion that the increase during that year in the accumulated interest as provided for in clause (b) on the specific amount required to be deposited annually during the currency of each sinking fund debenture by-law bears to the total of all increases during that year in the accumulated interest as provided for in clause (b) on all specific amounts required to be deposited annually during the currency of all outstanding sinking fund debenture by-laws;

(2) Where a by-law passed under this section requires the payment of a deposit to cover the cost of damage to a sidewalk, curbing or paved boulevard, or to any water service box or other service therein, the by-law shall provide that, upon the completion of the erection, alteration, repair or demolition of the building or buildings on the lands abutting such sidewalk, curbing or paved boulevard and upon application by the person by whom the deposit was paid, the amount by which the sum deposited exceeds the cost of such repairs shall forthwith be refunded.

(3) Where any moneys heretofore or hereafter paid to the Corporation to cover the cost of repairs to curbs, sidewalks or paved boulevards or to any water service box or other service therein remain unclaimed in the hands of the Treasurer of the Corporation for a period of six years, the Treasurer of the Corporation may insert in any newspaper having general circulation in the Town of Burlington a notice containing a list of such unclaimed moneys and stating that all persons having any claim to any of such moneys are required to prove their claims within ninety days from the publication of such notice, the Treasurer of the Corporation may transfer all of such moneys against which no claim has been made to the general funds of the Corporation free of and from any and all claims of any kind whatsoever.

(d) the entire cost chargeable to lands in the defined area shall be equitably apportioned among all parcels assessed as commercial in the proportion that the commercial real property and business assessment of each parcel bears to the total commercial real property and business assessment in the defined area;

(e) the said apportionment shall be made annually on the basis of the last revised assessment roll;

(f) all revenue from existing and future parking lots established by the corporation and from existing and future street meters, in the defined area shall be applied within the defined area for the purposes set out in clause (b);

(g) all other revenue from existing and future parking lots established by the corporation and from existing and future street meters outside the defined area but within the parking area shall be reserved for future parking facilities within the parking area.

2. Notwithstanding the provisions of any general or special Act,

(a) the council of the Corporation may provide in any money by-law that the principal shall be repaid at a fixed date with interest payable annually or semi-annually, in which case the debentures issued under the by-law shall be known as sinking fund debentures;

(b) when sinking fund debentures are issued, the amount of principal to be raised in each year shall be a specific sum that, with the estimated interest at a rate not exceeding $3\frac{1}{2}$ per cent per annum, capitalized yearly, will be sufficient to pay the principal of the debentures as it becomes due;

(c) when sinking fund debentures are issued, the Committee shall keep one or more consolidated bank accounts in which,

(i) the treasurer of the Corporation shall deposit each year during the term of the debentures the moneys raised for the sinking funds of all debts that are to be paid by means of sinking funds, and

(ii) there shall be deposited all earnings derived from, and all proceeds of the sale or maturity or redemption prior to maturity of, sinking fund investments;

(i) all withdrawals from the consolidated bank accounts shall be authorized by the Committee, and all cheques on the consolidated bank accounts shall be signed by the treasurer of the Corporation and one other member of the Committee;

(j) the Committee shall invest moneys on deposit from time to time in the consolidated bank accounts and may at any time or times vary any investment;

(k) the moneys in the consolidated bank accounts shall be invested in debentures of the Corporation or other securities in which a trustee may invest under the provisions of The Trustee Act or in securities issued by the United States of America;

(l) all securities acquired by the Committee as investments for sinking fund purposes shall be deposited for safe-keeping in a chartered bank or trust company until they are sold or mature or are called for redemption prior to maturity;

(m) all sinking fund debentures issued on the same date, maturing on the same date and payable in the same currency, notwithstanding that they were issued under one or more by-laws, shall be represented by one sinking fund account;

(n) where there is more than one sinking fund debenture by-law outstanding, the earnings from sinking fund investments in each year shall be apportioned by the Committee among all the sinking funds in the proportion that the increase during that year in the accumulated interest as provided for in clause (b) on the specific amount required to be deposited annually during the currency of each sinking fund debenture by-law bears to the total of all increases during that year in the accumulated interest as provided for in clause (b) on all specific amounts required to be deposited annually during the currency of all outstanding sinking fund debenture by-laws;

(o) where the office of the treasurer of the Corporation is vacant or the treasurer is absent or is unable to carry on his duties through illness or otherwise, the deputy treasurer of the Corporation shall act in his stead, and when so acting, has all the powers and duties of the treasurer as a member and as the chairman and treasurer of the Committee.

(2) Where a by-law passed under this section requires the payment of a deposit to cover the cost of damage to a sidewalk, curbing or paved boulevard, or to any water service box or other service therein, the by-law shall provide that, upon the completion of the erection, alteration, repair or demolition of the building or buildings on the lands abutting such sidewalk, curbing or paved boulevard and upon application by the person by whom the deposit was paid, the amount by which the sum deposited exceeds the cost of such repairs shall forthwith be refunded.

(3) Where any moneys heretofore or hereafter paid to the Corporation to cover the cost of repairs to curbs, sidewalks or paved boulevards or to any water service box or other service therein remain unclaimed in the hands of the Treasurer of the Corporation for a period of six years, the Treasurer of the Corporation may insert in any newspaper having general circulation in the Town of Burlington a notice containing a list of such unclaimed moneys and stating that all persons having any claim to any of such moneys are required to prove their claims within ninety days from the publication of such notice, the Treasurer of the Corporation may transfer all of such moneys against which no claim has been made to the general funds of the Corporation free of and from any and all claims of any kind whatsoever.

(4) Without limiting the generality of subsection 1, a by-law passed under this section may require that the owner or occupier of the lands take all necessary steps to prevent building material, waste or soil from being spilled or tracked onto the public streets by vehicles going to or coming from the lands during the course of the erection, alteration, repair or demolition and may provide that, in addition to any penalty otherwise provided by law, the owner or occupier shall be responsible to the Corporation for the cost of removing such, and such cost may be deducted from the deposit.

NOTICE IS HEREBY GIVEN that The Cor-

an Act providing that:

1. Notwithstanding any general or special Act,

- (c) the defined area referred to in paragraph (b) may be altered, reduced or extended within the boundaries of the parking area with the approval of the Ontario Municipal Board if in the opinion of council it is deemed necessary so to do;
- (d) the entire cost chargeable to lands in the defined area shall be equitably apportioned among all parcels assessed as commercial in the proportion that the commercial real property and business assessment of each parcel bears to the total commercial real property and business assessment in the defined area;
- (e) the said apportionment shall be made annually on the basis of the last revised assessment roll;
- (f) all revenue from existing and future parking lots established by the corporation and from existing and future street meters, in the defined area shall be applied within the defined area for the purposes set out in clause (b);

2. Notwithstanding the provisions of any general or special Act,

- (b) when sinking fund debentures are issued, the amount of principal to be raised in each year shall be a specific sum that, with the estimated interest at a rate not exceeding $3\frac{1}{2}$ per cent per annum, capitalized yearly, will be sufficient to pay the principal of the debentures as it becomes due;
- (c) when sinking fund debentures are issued, the Committee shall keep one or more consolidated bank accounts in which,
 - (i) the treasurer of the Corporation shall deposit each year during the term of the debentures the moneys raised for the sinking funds of all debts that are to be paid by means of sinking funds, and
 - (ii) there shall be deposited all earnings derived from, and all proceeds of the sale or maturity or redemption prior to maturity of, sinking fund investments;

- (n) where there is more than one sinking fund debenture by-law outstanding, the earnings from sinking fund investments in each year shall be apportioned by the Committee among all the sinking funds in the proportion that the increase during that year in the accumulated interest as provided for in clause (b) on the specific amount required to be deposited annually during the currency of each sinking fund debenture by-law bears to the total of all increases during that year in the accumulated interest as provided for in clause (b) on all specific amounts required to be deposited annually during the currency of all outstanding sinking fund debenture by-laws;
- (o) where the office of the treasurer of the Corporation is vacant or the treasurer is absent or is unable to carry on his duties through illness or otherwise, the deputy treasurer of the Corporation shall act in his stead, and when so acting, has all the powers and duties of the treasurer as a member and as the chairman and treasurer of the Committee.

3.—(1) The council of the Corporation may pass by-laws for regulating the crossing of curb-lines, sidewalks or paved boulevards by vehicles delivering materials to or removing materials from abutting lands on which any building is being erected, altered, repaired or demolished, and for requiring the owners of such abutting lands, upon any application for the issuing of a permit certifying to the approval of plans of buildings to be erected, altered, repaired or demolished thereon, to pay to the Corporation a sum of money not to exceed \$5 per foot of the limit of the lot abutting directly on such sidewalk, curbing or paved boulevard as a deposit to meet the cost of repairing any damage to the sidewalk, curbing or paved boulevard or to any water service box or other service therein caused by the crossing thereof by such vehicles.

(2) Where a by-law passed under this section requires the payment of a deposit to cover the cost of damage to a sidewalk, curbing or paved boulevard, or to any water service box or other service therein, the by-law shall provide that, upon the completion of the erection, alteration, repair or demolition of the building or buildings on the lands abutting such sidewalk, curbing or paved boulevard and upon application by the person by whom the deposit was paid, the amount by which the sum deposited exceeds the cost of such repairs shall forthwith be refunded.

(3) Where any moneys heretofore or hereafter paid to the Corporation to cover the cost of repairs to curbs, sidewalks or paved boulevards or to any water service box or other service therein remain unclaimed in the hands of the Treasurer of the Corporation for a period of six years, the Treasurer of the Corporation may insert in any newspaper having general circulation in the Town of Burlington a notice containing a list of such unclaimed moneys and stating that all persons having any claim to any of such moneys are required to prove their claims within ninety days from the publication of such notice, the Treasurer of the Corporation may transfer all of such moneys against which no claim has been made to the general funds of the Corporation free of and from any and all claims of any kind whatsoever.

(4) Without limiting the generality of subsection 1, a by-law passed under this section may require that the owner or occupier of the lands take all necessary steps to prevent building material, waste or soil from being spilled or tracked onto the public streets by vehicles going to or coming from the lands during the course of the erection, alteration, repair or demolition and may provide that, in addition to any penalty otherwise provided by law, the owner or occupier shall be responsible to the Corporation for the cost of removing such, and such cost may be deducted from the deposit.
